

# Geophysicist Intern

## Summary

- **Title:** Geophysicist Intern
- **Contract Type:** Temporary or permanent position
- **Base Location:** Rueil-Malmaison, near Paris, France, with missions abroad
- **Job Reference:** 2018-Geophy-Intern

## Job Overview

Beicip-Franlab is a world leading consulting Company providing services and software to help oil and gas professionals in interpreting subsurface data and assessing exploration and production risks and opportunities. Our company is seeking Junior Geophysicists to support the development of its activities.

As a Geophysicist Consultant, you will be expected to work directly in an integrated project team composed of experienced geophysicists, geologists and reservoir engineers. You will apply geophysical technologies and skills to perform prospect evaluation, geological modelling and reservoir characterization for Oil & Gas Company's exploration, appraisal and development drilling programs.

The successful candidate will work full time within the Seismic Reservoir Characterization Group or within the Seismic Interpretation Group.

He/She will use a comprehensive set of seismic characterization technologies, for both matrix and fracture properties prediction: quality assessment and conditioning, well data management, seismic calibration, pre/post-stack inversion and characterization.

Or/and

He/She will take part in a comprehensive seismic interpretation project and will be responsible for the main tasks including data loading, quality assessment, synthetic seismograms generation, horizon and fault identification and picking, fault network definition, time structural mapping, velocity analysis, depth conversion and mapping.

You will be based in our main office near Paris in France.

## Preferences

Beicip Franlab is looking for highly motivated individuals with the following qualifications:

- An MSc degree in Geophysics or Geology;
- First Experience in the Oil & Gas industry is a plus;
- Possess an above average level of understanding of the E&P Industry (internships);
- Intellectual curiosity;
- Ability to work as a team player;
- Ability to think critically;
- Ability to be motivated and to motivate others;
- Excellent written and oral communication skills;
- Fluent English and French mandatory, other language advantageous;
- Legal right to work in France without company sponsorship.
