

BeicipFranlab

An IFP group company

# EAGE 2017 Conference

Booth  
#1120

We welcome you on booth #1120 to attend our 10-minute presentations!

You will have the occasion to discover Beicip-Franlab know-how and technology through various case studies and E&P successes around the world. We will also be pleased to answer your questions and show you our software capabilities through short demos on demand.

Tuesday, June 13

Wednesday, June 14

Thursday, June 15

9h15

Beicip-Franlab Experience in Integrated Exploration Studies

10h15

Beicip-Franlab Experience in Integrated Reservoir & Production Studies

13h15

Exploration in Eastern  
Mediterranean

Production Optimization with  
ICD in Mature Oil Fields

Exploration of Atlantic  
Margins

15h15

Seismic Reservoir  
Characterization

Forward Stratigraphic  
Modeling from Frontier to  
Mature Basins

Basin Modeling & Seismic  
Imaging for Pore Pressure  
Prediction

16h15

Beicip-Franlab Carbonate  
Reservoirs Expertise

Enhanced Oil Recovery  
Capabilities

## Check out our participation at the conference

Monday, June 12

Tuesday, June 13

Wednesday, June 14

Thursday, June 15

Poster

**10h50:** Uncertainty analysis in forward stratigraphic modeling: new approaches to de-risk geological models

A. Thébault, WS11, Room C3

Poster

**8h30:** Integration of forward stratigraphic and petroleum system modeling in Northeastern West Siberia – new concepts

M. Dubille, ePoster 5

Poster

**11h45:** Innovative seismic reservoir characterization workflow in a shale oil context

N. Guyomar, ePosters 2

Poster

**13h30:** Extension of the apulian platform in the northwest greek offshore

V. Carayon, WS10, Room D1

Wall

**14h45:** Potential of the Orphan basin, NL, Canada

E. Le Guerroué, Room B2

Wall

**13h30:** Foam injection: calibration methodology from laboratory experiments to pilot design

M. Mamaghani, Room C2

Wall

**15h30:** Downward migration, theory and application to Najmah-Marrat petroleum system

M. Dubille, Room C1

Wall

**15h30:** Mesozoic and Cenozoic offshore shallow water carbonates of Northwestern Greece: seismic expression of an emerging play

A. Fournillon, Room C2

Wall

**15h55:** Sequence stratigraphy, depositional environment and numerical stratigraphic modelling of the Orphan basin (NL, Canada)

P. Jermannaud, Room B1
